Southern New Hampshire University

FYE 101 Transcript for Welcome From Students and Alumni

[0:00:04.990] At SNHU, there is a place for everybody. You just have to get involved.

[0:00:09.200] Take that first step.

[0:00:10.630] Don't be afraid to just reach out to someone.

[0:00:12.900] The communication between myself and the faculty and the students were there regularly.

[0:00:17.140] Working with my classmates who are doing the same path as I am really made the difference.

[0:00:22.240] Sometimes I really do have, like, weird questions, and I don't know the answer. Or if I've ever had a problem with a professor, my program adviser, she's always supportive and like, “Okay, what can we do to fix this problem?”

[0:00:31.630] You really get out of it what you put into it.

[0:00:34.000] It's hard work.

[0:00:35.590] But it's worth the effort and at the end, the accomplishment is huge.
